**EAN Ethics and Quality TF analysis of the MSIF MOLT
COI declarations 2022**

Dear Joanna,

Following up on our consultation from 2021 concerning assessment of the COI declarations for the MSIF MOLT project, you have approached us with a follow-up request for review of additional COIs relating to interferon products. Upon revision of the pre-assessment (attached) of those additional declarations, we can confirm the conclusions as proposed.

Additionally, we would like to inform that herewith we conclude our contribution this project – as the Ethics and Quality Task Force of the EAN we shall no longer provide ethical advice outside the organisation.

With best regards,

Günther DEUSCHL
